### Passionate, creative & hard working designer

I am dedicated, flexible, a strong team player but also capable of working autonomously. I have excellent abilities in researching, developing and designing concepts including graphics, UI, UX, products, interiors and services.

Combining activities since an early age has made me a very organised person, self-sufficient and capable to work under pressure. The broad scope of my studies and experience brought me multidisciplinary skills, has enhanced my adaptabilities and made me a very self-reflective person, with strong problem-solving skills, always keen to take up challenges.

EDUCATION & TALKS

EXPERIENCES

### Design

- capable of developing conceptual and creative briefs / specifications
- conception of artefacts and interfaces with user-centred approach
- graphics and presentation: very good eye for layout, composition and details
- handmade and CAD technical drawings / 3d models
- graphics and rendered visuals

### Research

- meticulous qualitative and quantitative ethnography-based research
- leading the installation of design interventions in social contexts in a safe manner
- capable of preparing and conducting participatory workshop and interviews
- strong adaptability and rapid learning curve on new subjects
- knowledge of risk assessment procedures
- data processing and visualisation

### Communication

- capable of preparing and presenting structured presentation with singular visual impact
- strong written and oral communication skills, with academic writing style
- empathic listener and persuasive speaker
- good teamwork abilities allowing me to collaborate easily with other disciplines (biologists, engineers...)
- excellent customer care skills

### Project management and organisation

- strong organisational, planning, budget and team management
- very organised & self-sufficient person, capable to work under pressure
- familiar with Agile methodology
- user of Slack, Trello, Asana, Jira for project management

### Creative Computer skills

Software: Photoshop, InDesign, Illustrator, AutoCAD, SketchUp, Cinema 4D, Final Cut Pro, iLife, iWork, Microsoft Office.  
Environments: Mac OS X, Windows

### Web Development & Coding skills

HTML & CSS  
Wordpress  
Version Control: Github & SourceTree  
Arduino : C/C++

### Languages

Native French speaker  
Fluent English  
Beginner German

### Driving

Full clean current European driving license

SKILLS

INTERESTS

### Arts/craft

Drawing, painting, collage  
Sewing, jewellery making

### Digital media

Photography  
Digital video editing  
Stop-motion animation

### Cultural

Independent Cinema, Contemporary art  
and design museum /exhibitions  
Electronic music concerts

### Sports

Swimming  
Alpine skiing  
Scuba diving

### Traveling

India, Nepal, Senegal, Eastern Europe, Istanbul, Thailand, Sri Lanka, Iceland, Croatia...
